Rocky River, OH (June 22, 2007) – AspDotNetStorefront is excited to announce the opening of a new sales & support office in Cleveland, Ohio. The goal of the expansion is to continue to provide an exemplary level of customer sales and support services. This expansion is needed as AspDotNetStorefront pushes into the vast new markets that the AspDotNetStorefront for DotNetNuke® and AspDotNetStorefront for Interprise Suite™ eBusiness opportunities present. Additionally, this will increase availability during key business hours both on the east coast and in Europe, operating from 8am through 11pm Eastern time (sales hours 9am – 9pm).

“We knew that the release of our Interprise Suite and DotNetNuke integrated versions would put a greatly increased demand on our ability to provide prompt, quality sales and support services to our customers. These are absolutely huge new markets for us, and the response to our presence has already been very positive. It is important that we be proactive in meeting that challenge head-on. Our customers deserve that,” said Dan Van Kuren, V.P. Customer Service for AspDotNetStorefront. “We needed a new larger location where we could keep pace with our rapidly growing customer base to continue to provide sales and support services. We look forward to leveraging this expanded capacity to exceed our customers’ expectations.”

AspDotNetStorefront’s corporate offices will remain in Scottsdale, Arizona.
