FOR IMMEDIATE RELEASE

AspDotNetStorefront ML/DNN v7.1.2 Released

January 27th, 2009 – Westlake, OH – AspDotNetStorefront is pleased to announce the new ML/DNN v7.1.2 release of the ML for DotNetNuke platform.

Based on months of cumulative feedback from customers and partners, AspDotNetStorefront ML/DNN version 7.1.2 for DotNetNuke is now released focusing on enhancing the feature set, usability, and reliability of the ML/DNN platform. Such improvements include significant enhancements in the ability to handle international and multi-locale sites, as well as updates to admin site functionality, shipping, tax handling, support for multi-portal sites, and hundreds of additional improvements facilitating even stronger e-commerce capabilities with AspDotNetStorefront's ML/DNN shopping cart platform.

"We're very excited about the progress we have made with this release," said AspDotNetStorefront's COO Dan Van Kuren. "Merging two best-of-breed platforms such as AspDotNetStorefront's industry leading ecommerce and DotNetNuke's CMS system represents a significant challenge. This latest release shows that we are dedicated as an organization to supporting merchants and developers using the DNN platform, and continues our commitment to lead the DotNetNuke e-commerce shopping cart market in features, reliability, and overall value."

New customers and existing customers with current maintenance plans will have access to the new release starting on January 27th, 2009 at <http://www.aspdotnetstorefront.com/>. Other customers interesting in upgrading can contact our sales department at sales@aspdotnetstorefront.com or dial 602-490-0243 option 2.
